now what?

Manifesto for Agile Software Development

We are uncovering better ways of developing products by doing it and helping others do it.

Through this work we have come to value:

Individuals and interactions over processes and tools

Working software over comprehensive documentation

Customer collaboration over contract negotiation

Responding to change over following a plan

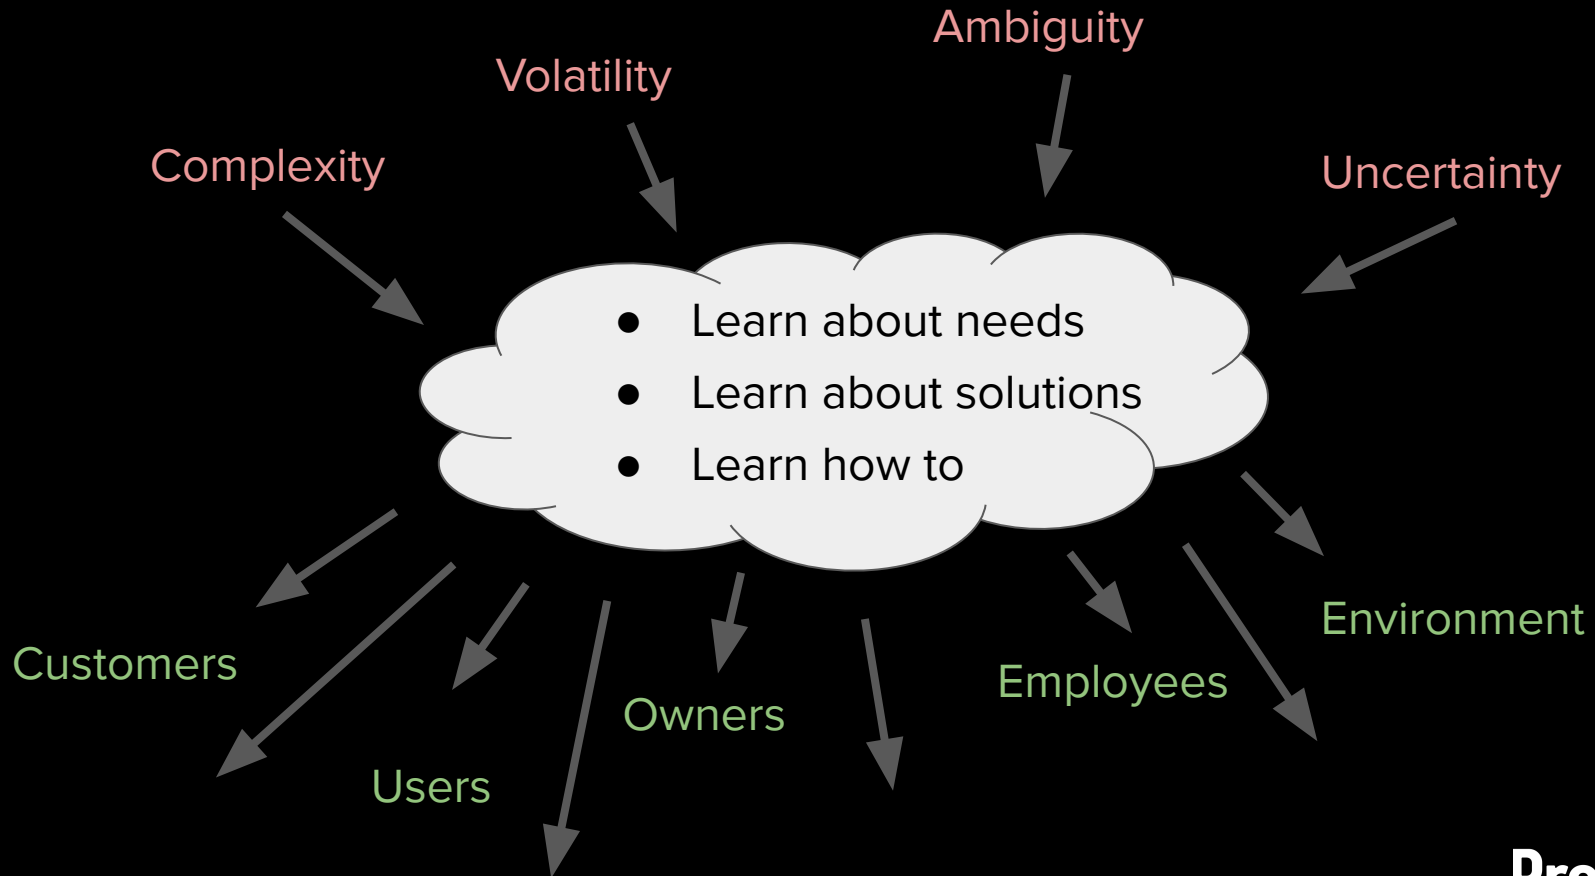

Volatility

Uncertainty

Complexity

Ambiguity

Objections

- Autonomous teams can do everything
- Managers should stay away

Leadership

- involvement
- support
- vision

Levels of engagement (Gary Hamel)

Illusion of control (Ellen Langer)

We like our own ideas 4x more

The result:

Teams that feels they can do
and influence what they love

Leadership

- involvement
- support
- vision

Rules to follow as an employer

EU laws

Moral obligations

Local laws

National laws

Unions

Reflect behaviours

Leadership

- involvement
- support
- vision

Stay relevant

Provide direction and playing field

Conclusion

- There is work for you in the future
- Stop and reflect over the needs you see and your abilities
- Change is positive if we take the opportunity
