What **responsibility** do you want to delegate and **why**?

In what **environment** this delegation will take place?  
(department, team, location, process, ...)

What **knowledge** do you need to transfer so the new responsible person can perform well?

Conditions & governing constraints: What other **needs** does the new responsible person need to have in order to perform

# Story: "I don't know what's going on..."

## multitasking

[mʌltiˈpɑːskɪŋ] substantiivi

Tehdä samanaikaisesti montaa asiaa paskasti. Uuvuttaa tekijänsä, mistään ei tule valmista ja se keskeneräinenkin on aivan paskaa. Vrt. Multitasking

## multitasking

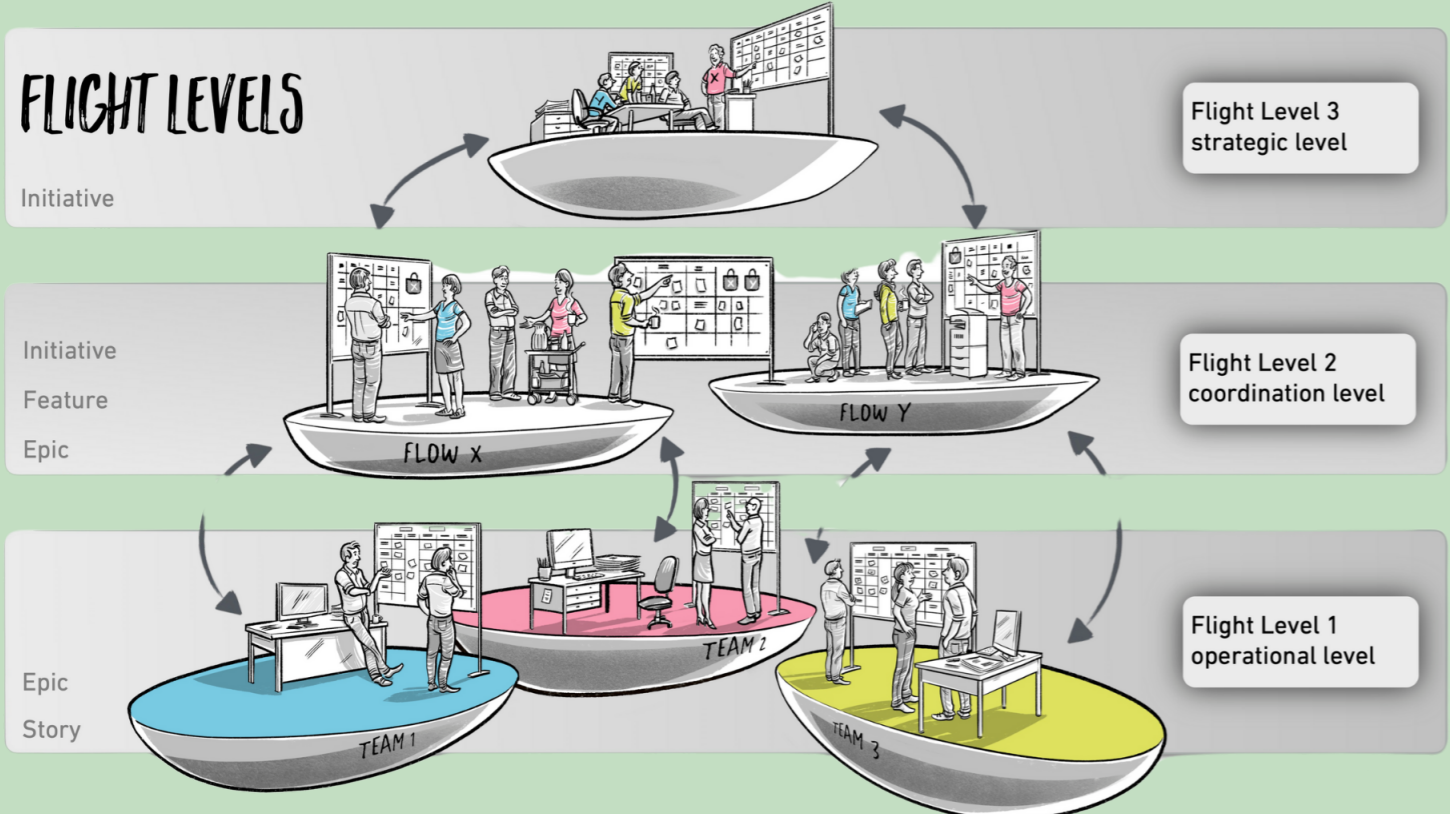

[mʌltiˈpɑːskɪŋ] substantiivi

Do many things at the same time. It exhausts the person, nothing gets finished and what is finished is just shit. Compare to Multitasking
